Presents

Talent Reality[®]
A GAMIFICATION TRAINING

Talent Reality®

The Talent Reality® simulation is an engaging, informative and highly effective gamification training program designed for all levels of employees.

In this game simulation, participants are tasked with executing a multi-year strategic business plan focused on delivering excellent customer service, driving operational efficiency, controlling costs effectively, managing your talent **and much more.**

Participants learn about the **BIG PICTURE**
of strategic and tactical initiatives and get to collect:

Business
Acumen

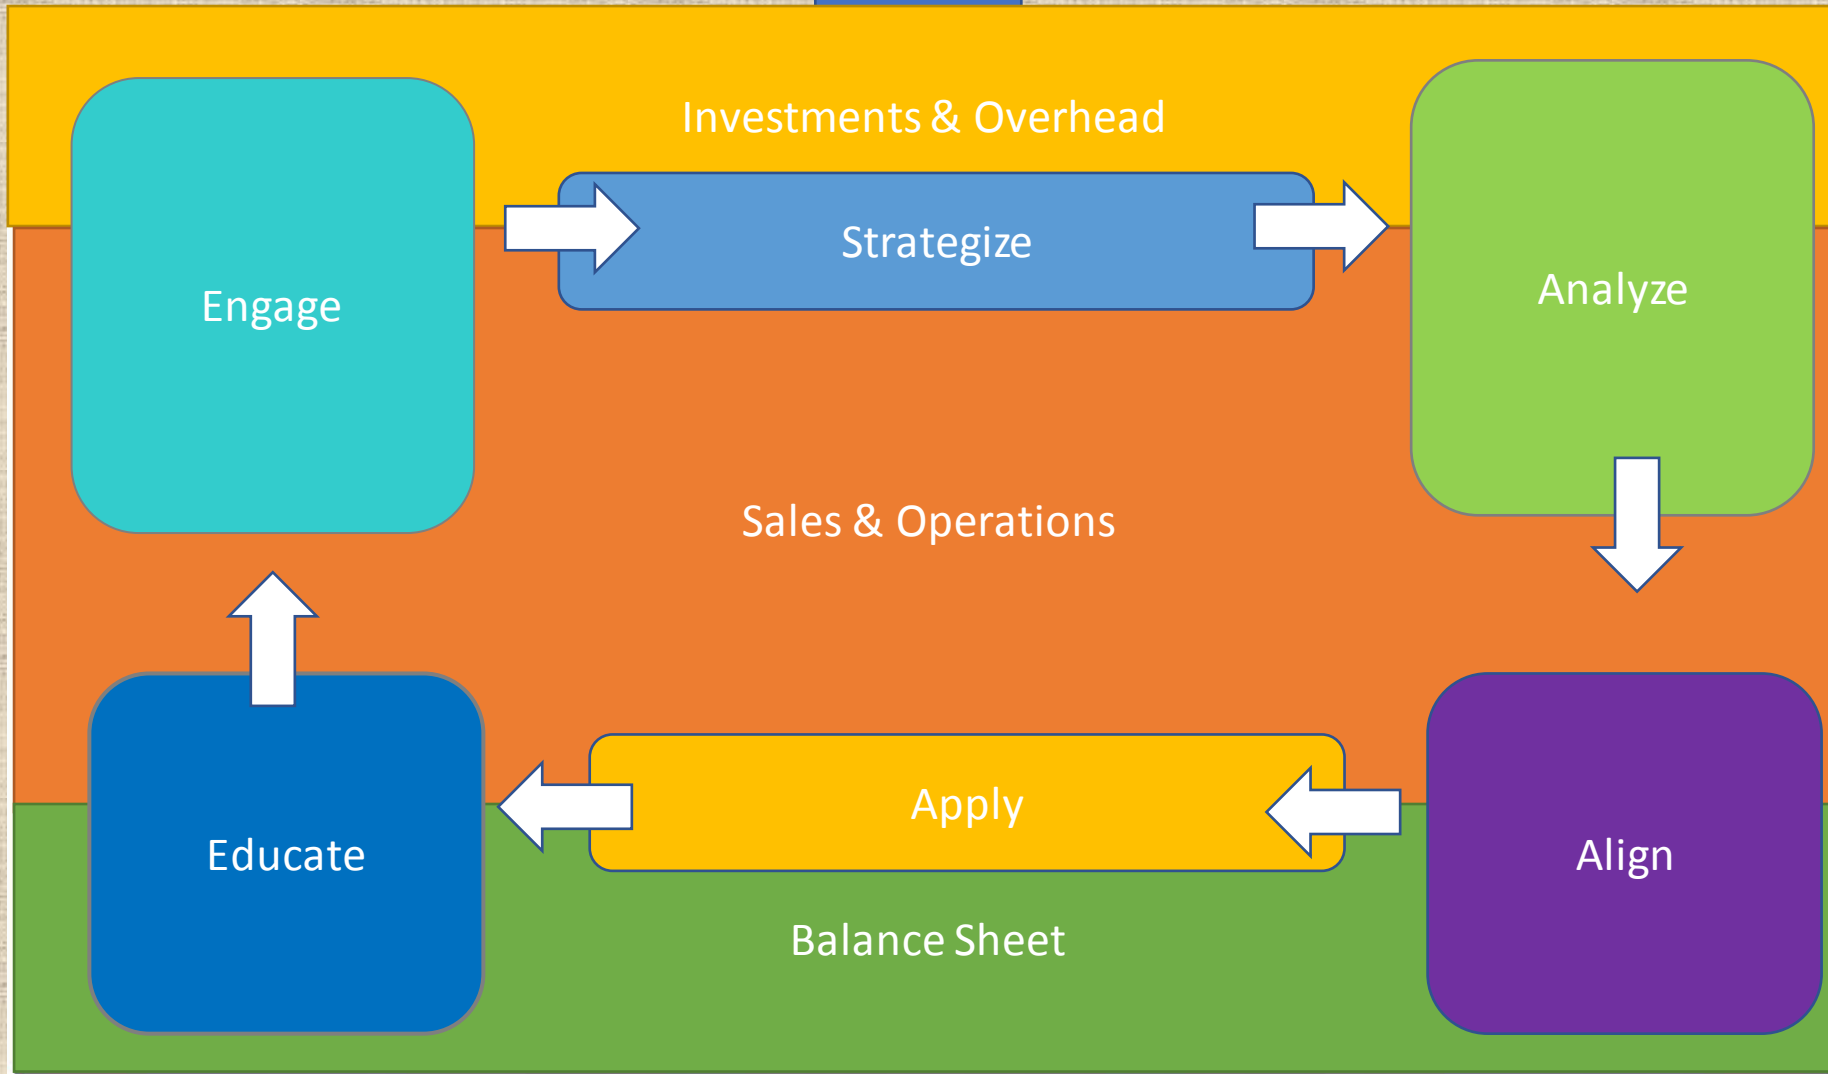

Financial
Acumen

Team
Acumen

& more...

BOARD SET UP

Each team represents a single business.

Each team is responsible for operational and financial (P&L) initiatives and strategies:

- **Ability to make investments**
- **Become more efficient**
- **Increase delivery speed and capacity**

Training your employees is critical to your business success and the gamification training we provide is designed to train all levels of employees.

What employees will take away from the training is the understanding that what they do every day has a critical financial impact; especially if everyone can work together as a team.

But we're confident if you get to experience the training, you will be impressed; so let us prove it to you!

Pilot

Play the Talent Reality game onsite and experience what it can do for your business

-

Customization

Customize the scenario to fit your culinary business and invite other key business leaders

-

Implementation

Get your people trained and on their way to increasing your organization's profitability
